SKILL SUMMARY

Tools/Platforms: Python, SQL, AWS, MS Excel (Advanced), Power BI, Tableau, Git, SPSS, IBM Cognos, SAP Datasphere

Technical Skills: Machine Learning, Data Analytics, Cloud and Data Strategy, Financial Modelling, Portfolio Management

Power Skills: Problem Solving, Critical Thinking, Leadership, Teamwork, Communication, Adaptability

INTERNSHIP

IMPACTRA CONSULTING

Marketing and Finance Intern

Jun 2026 – Present

- Computed net tax liabilities and designed tax-optimized employee CTC structures using Budget tax slabs, deductions (80C –80D) and taxation rules
- Evaluated key financial sectors (BFSI) and analyzed diverse portfolio management strategies to align asset classes with client investment objectives
- Currently driving 16 assigned dual-domain projects in marketing and finance to achieve firm target objectives.

PROJECTS

AI-Powered Portfolio Intelligence Platform

Jul 2026 – Present

- Engineered a full-stack AI portfolio manager replicating custom equity tracker frameworks from the excel
- Utilized web scraping techniques to fetch fundamental metrics (P/E, PEG, D/E ratio, YoY growth) from Screener.in
- Developed interactive portfolio dashboards visualizing real-time capital allocation, sector exposure, and individual holding performance to streamline decision-making

Investment Risk Simulator (Monte Carlo Method)

Feb 2026 – Mar 2026

- Engineered a stochastic engine to run 2000+ simulations, calculating Value at Risk (VaR) and Success Probability
- Developed a React-based dashboard to dynamically model Mean Return, Volatility, Inflation, and Management Fees
- Optimized real-time KPI logic to translate statistical distributions into actionable targets and long-term wealth projections

Fake Content Detection in social media using Deep Learning | Team Leader

Dec 2024 – Mar 2025

- Conducted research on detecting false content on social media and discovered a significant gap in existing methodologies in the truth seeker dataset
- Designed and optimized model architecture, achieving 96.95% accuracy in detection using various multiple models

ACHIEVEMENTS

- Secured 2nd place in the KEC Hackathon in 24 hours and earning a ₹3000 cash prize Apr 2024
- Secured 3rd place in the Idea Presentation event at I'Haltons 2K24 Mar 2024
- Won 1st place in the Site Sculpture event at SDF Fest 2K24 Mar 2024

PUBLICATIONS

A Hybrid Intrusion Detection System Using ML | Grenze International Journal

Jun 2024 – Dec 2024

- Developed a hybrid intrusion detection system using advanced feature selection and ensemble ML techniques, improving real-time anomaly detection and overall network-security performance

CERTIFICATIONS

- Financial Modelling using Excel and AI Mar 2026
- IBM Cognos Analytics V11.1 Feb 2026

EDUCATION

Lovely Professional University

Master of Business Administration – Business Analytics; CGPA: 8.75

Phagwara, Punjab

Aug 2025 – Present

Kongu Engineering College

Bachelor of Engineering – Computer Science and Engineering; CGPA: 8.19

Erode, Tamil Nadu

Oct 2021 – Mar 2025
